

Technically Speaking

Pacific Rim Technical Services

Jul/Aug 2016

It's almost the end of another (financial) year and a reminder of the current economic climate continuing to be felt by many, especially in the greater Townsville region.

With that in mind, I would like to take the opportunity to thank our customers (and suppliers) for their support and loyalty over the last twelve months. We are looking forward to continuing to provide the highest level of customer service and are committed to sourcing all of your instrumentation requirements.

In this edition we are featuring a special offer, thanks to our channel partner, CSE Uniserve. It is for a limited time only, so be quick so that you don't miss out. Also included, Glenn's upcoming travel dates. Be sure to get in touch with him if you would like to catch up while he is in your area.

Finally, it is my pleasure to introduce our newest team member, Centaine. She has recently joined us as our new Administration Assistant. Offering support within purchasing and procurement, I am sure many of you may have already spoken with her on the phone or in person. I hope you will join us in welcoming her to the team.

Cheers
Greg
